

Experience fast on-demand cassette printing in any color

Tissue-Tek® SmartWrite®

Cassette Printer

For low and high throughput histology laboratories

Fast on-demand and batch cassette printing solutions

SmartWrite Cassette Printer With AutoLoader

Uni-Cassette® Standard and Biopsy Cassettes for color and black printing

SmartWrite Cassette Printer for low throughput on-demand printing

Features and Benefits

Features	Benefits
On-demand batch printing	Can be integrated into any workflow and LIS environment
300 dpi print quality	High-content barcode for high first-pass read
Robotic feed mechanism	Jam-free cassette printing
Color and black printing options	Can combine color cassettes and color printing on white cassettes for effective inventory management
Thermal transfer printing	Noise-free and fume-free; print is resistant to chemical degradation
4,300 black prints at 8 cassettes per minute	Lowest price for throughput
5 extra cassette hoppers provided	Preload hoppers for efficient workflow
Clear cassette hoppers	Easy identification of cassette colors
Small footprint for Cassette Printer and Cassette Printer With AutoLoader	Manual printer can be located in or at the grossing station
SmartWrite Software and drivers	Compatible with uni-directional and bi-directional LIS integration
Easy and error-checked label and barcode design	User-defined customizable labels; prevents barcode reading errors

Jam-free cassettes every 8 seconds—quiet, quick, and efficient printing!

Tissue-Tek SmartWrite Cassette Printer

Product Configurations

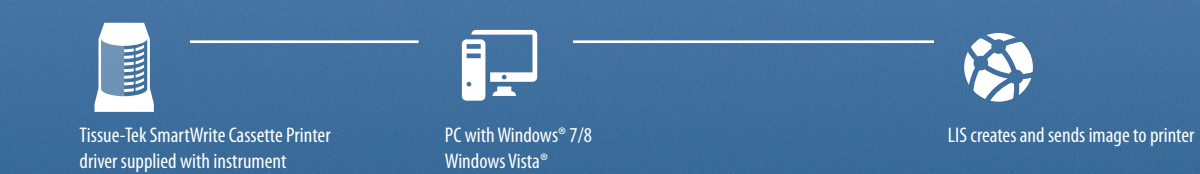

Stand-alone Cassette Printer With AutoLoader or Printer (Manual Feed)

Stand-alone Cassette Printer With Bi-directional LIS Connectivity

Uni-directional LIS Integration

Accessories and Consumables
